Professional Summary

Python Django Developer with 2+ years of experience in full-stack development using Django and Django REST Framework. Skilled in building scalable backend APIs, deploying applications on cloud servers, and managing infrastructure on Linux. Delivered production-ready solutions for fintech, healthcare, and enterprise clients with a strong focus on performance, reliability, and DevOps best practices.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Django, Django REST Framework, React, Bootstrap, jQuery, Celery

Databases: PostgreSQL, MySQL, SQLite

Cloud & DevOps: AWS EC2, Linux, Nginx, Gunicorn

Tools & Technologies: Git, WebSocket, REST API Development

Soft Skills: Leadership, Teamwork, Adaptability, Problem Solving, Communication

Experience

Python Django Developer | *Infobuddha Technologies Pvt Ltd*

Feb 2025 – Present

- Working as a backend-focused Python Django developer on production-grade fintech and digital commerce platforms.
- **Coffercard – Digital Gift Card Platform:** Implemented vendor onboarding modules, coupon and offer logic, transaction handling, and admin dashboards for a live gift card ecosystem. (Live)
- Managed deployments on AWS EC2 using Nginx and Gunicorn; handled database design, query optimization, and data consistency across MySQL/PostgreSQL environments.
- Worked closely with React frontend teams and product stakeholders to deliver feature updates and bug fixes in a fast-paced environment.

Python Django Developer | *Efuturex Technologies*

Mar 2023 – Jan 2025

- Led development of multiple client projects including a multiplayer card gaming platform deployed on AWS EC2.
- **CFO – Accounting Software:** Built invoicing, Fatoora integration, and reporting modules; enhanced frontend components and improved system reliability by 15%.
- **Mubasher One & Alfa-Al-Khaleej ERP:** Developed billing, inventory, invoicing, and ERP modules using Django, HTML, CSS, and JS; managed backend, frontend, and deployment operations.
- Migrated legacy codebases from Python 2 to Python 3.10, improving compatibility, speed, and security.

Projects

Coffercard – Digital Gift Card Platform

- Built React-Django backend features and deployed on AWS EC2 with Nginx and Gunicorn for live production usage.
- Implemented vendor modules, coupon logic, transaction handling, and admin tools. (Live)
- Ensured data consistency and optimized database queries across PostgreSQL environments.

Card Betting Game with MLM Structure

- Led full project lifecycle from requirement analysis to deployment, completing 20% ahead of schedule.
- Integrated a custom MLM backend increasing user engagement by 30%.
- Deployed on AWS EC2, reducing hosting cost by 25% and improving scalability by 40%.

CFO – Accounting Software

- Developed backend modules with Fatoora integration, improving financial reporting accuracy by 20%.

- Enhanced system reliability by 15% through backend and frontend improvements and optimized hosting workflows.
- Streamlined reporting for Saudi market compliance and improved invoice accuracy.

Mubasher One – Workshop Management System

- Built accounting, billing, and inventory modules, reducing manual processing time by 30%.
- Developed responsive UI and optimized backend workflows, improving user experience by 25%.
- Managed backend, frontend, and deployment operations gaining full-stack and DevOps exposure.

Rafa Medicals – Hospital Management Website

- Developed a bilingual hospital website with an online booking system and admin dashboard.
- Hosted on DigitalOcean using Nginx, reducing hosting costs by 20% and improving uptime.
- Live: rafamedicals.com/en

Alfa-Al-Khaleej – ERP System

- Developed ERP modules for daily business operations, increasing operational efficiency by 25%.
- Automated workflows using Django, HTML, CSS, and JS, reducing manual workload by 30%.
- Improved cross-department data flow and reporting accuracy for business stakeholders.

Education

Python Full Stack with Cloud Computing

Besant Technologies, Bangalore

Apr 2024 – Sep 2024

Full Stack Web Development

Efuturex Technologies Pvt Ltd, Thrissur, Kerala

Jul 2022 – Dec 2022

BCom Computer Application

Naipunya Institute of Management and Information Technology, Koratty, Kerala

Jun 2017 – May 2020

Higher Secondary Education – C.B.S.E

Bhavan's Vidya Mandir, Irinjalakuda

2015 – 2017
